CREDITS:

DJANE TRACY | <http://www.facebook.com/djanetracy>

Tracy is djane, producer and singer from Slovakia. As djane she plays house and breakbeat, as producer is signed to VIM Records and Melodica Netlabel. After high school she has performed with the band in Slovakia and Austria. She also won T-mobile Remix Competition in Slovakia. Currently she is working on new tracks and vocals and also will be moderator of new Breaks.sk podcast.

BLUE MOTION | <http://soundcloud.com/bluemotion>

Since forming Blue Motion in 2009, Slovakia's Dirrrty B and Belgian's Influenza Media founder Eros have set out across the airwaves, unleashing a relentless amount of deep and soul-moving musical allure to the masses. Lashing out like an unexpected storm, the duo has left its imprint on many well known labels, including Fokuz, Phunkfiction, Spearhead, Good Looking, Blu Saphir, Citrus, Telluric, Peer Pressure, Point 9 Audio, Temper D Productions, Future Thinkin, and Influenza Media, and has collaborated with the likes of Sconeboy, The Square, Atmospherix, Brandon Miles, Paul SG, Mutt, Stanza, Wreckage Machinery, and SoulTec. Vocalists Grimm and MC Fava have also been heard as their vocal stylings creep through the depths of this emotional sound mosaic.

HYRICZ | <http://www.myspace.com/hyriczcole>

He has been a dj since his 17 years and since that time he has come through a wide variety of dance styles. At present he feels 'at home' along minimal, electro, tech and progressive house. His sets are characterized by originality, actuality, interesting and seasonable track selection, accurate mixing and right feeling. From February 2008 his radioshow Minimatica is regularly broadcasted at well-known American dance radio Digitally Imported (www.di.fm). Besides playing he produces his own tracks in minimal and tech-house styles on labels like Seta, Sumo, Another chance rec and more.

SOUTHBOY | <http://www.myspace.com/southboydj>

SouTHboy is a DJ and producer from the city of Trenčín (Slovakia). His first attempts to make his own music date back to 1999 when he produced mainly acid techno. But it took ten more years of constant evolving and many more finished tracks for him to be able to say: „Now, this is the sound I am satisfied with. This is the sound I can share with the world.“ And what is that particular trademark sound of his? Some may call it progressive house, some call it tech house, many more say there 's some trance-like feeling to it. Nevertheless, whatever pigeon hole suits you personally – be assured that every single track tells a story of melody and some pleasant melancholy.
